Overview

I am excited to inform you that we are now offering a Primary Knee live webinar with Prof. Plamen Kinov from Bulgaria and dr. Lehel Balint from Hungary.

This webinar will focus on the foundations of Primary knee surgery, latest technologies, best practices as well as case studies. It will also discuss trends and future considerations and will close with a Q&A. The webinar will be offering an interactive approach therefore customers can join prepared with their questions and comments.

Who is this event for?

This event is recommended for surgeons independently performing primary TKA, aware of basic surgical techniques of TKA and would like to expand their knowledge in challenging and complex area of Primary Knee Surgery.

Speaker’s Profile:

Prof. Plamen Kinov is Head of the Department of Orthopedics at the University Hospital Queen Giovanna – ISUL in Sofia, Bulgaria. He teaches students and residents in arthroplasty and fracture treatment. He is an author of 140 publications and 15 book chapters and edited four books.

Dr Lehel Balint, MD, PhD, FRCS earned his Medical Doctor qualification in 1992 in Pecs, Hungary. He has spent clinical fellowships in the UK, USA, Germany, France, Belgium, Austria, Spain and Hungary on various specialty subjects. He was working from 2004 to 2019 as Consultant Orthopaedic Surgeon in various hospitals in the UK performing more than 10000 procedures. Since 2019 he is the Head of Orthopaedic and Sport Surgery Department of the National Institute for Sport Sciences in Budapest, Hungary. His specialty areas are: major joint (hip, knee, shoulder) replacement, resurfacing, shoulder and knee arthroscopic surgery. He is member of BOA, AAOS, EFORT, National delegate of SICOT for Hungary and one of the founder of the Association of Hungarian Shoulder and Elbow Surgeons as well as the Hungarian Orthopaedic Legion.
